

Puretec WH Series filtration system is the appropriate choice for providing safe, clean, healthy water throughout the house, or the office.

The system reduces taste, odour, chlorine, chemicals, sediment down to 5 micron. It offers low pressure and flow drops which is important when multiple taps are used simultaneously throughout the day.

The Puretec WH Series is a logical choice for people concerned about sediments and chemicals in drinking water or when showering and will improve quality of life. The system provides spring water quality water throughout the house and is affordable for all.

Features & Benefits

- Peace of mind whole house filtration
- Isolating, non-return valve available
- Flow rates up to 80 litres/minute
- Double length housings for reliable whole house protection.
- Protects and prolongs life of appliances

Specifications

Models available:	WH2200	WH2300	WH2400
