- 50mm waste supplied
- Radius internal corners - easy cleaning
- Radius external corners - added safety
- Mains powered refrigeration unit
- Ideal for schools and community centres

about

The *BRITEX Refrigerated Drinking Trough* is particularly suited to education projects. A proprietary refrigeration unit with automated thermostat is fully self contained underneath and plumbing connections are concealed. All units are supplied pre-plumbed with water efficient push button drink bubblers with bacteria and sunlight resistant rubber compound mouth pieces for additional safety in the event users are bumped whilst drinking. Fully welded, rounded corners both internally and externally ensure easy cleaning and provide added safety in high traffic areas. Disabled compliant drinking stations can be supplied at either the left or right hand end.

Additional technical literature for this product can be downloaded from the Britex website.

sample spec. text
